

KIMOTO

LevSurf

3D formable hard coated films for printed electronics and displays in IMD / IME / FIM processes

Glasstect

Adhesive functional film for glass lamination with IR filter and AR functionality

Opt saver

Diffusion films for displays, printed electronics and lighting

ElastoDur

Hard coated films for printed electronics, membrane switch and display applications

Carbonfeather

Black coated films for optics and sensor applications

Opt saver PCL52

3D formable diffusion film for IMD printed electronics

Prosave

Adhesive protection and carrier films
