

## **EKTAFLEX Imager**

Ultra-high-resolution imaging platform, with SQUARESPOT technology, for creation of flexographic films/plates for use in printed electronics and security applications.

---

## **EKTAFLEX Flexographic Plates**

Thermal Imaging Layer films and flexographic plates for use in the EKTAFLEX Imager

---

## **EXTAFLEX Custom Patterned Plates**

A service that provides ultra-high-resolution plates with patterns specified by the customer. The plates can then be used on the customer's own flexographic press

---

## **EKTAFLEX Laminator**

High precision laminator for securing a Thermal Imaging Layer (TIL) to a flexographic plate prior to plate processing
